From label template to print – everything you need to manage your labeling

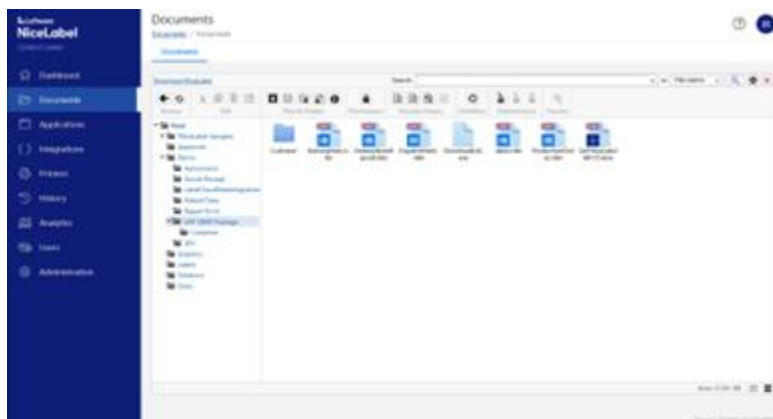

What's special about NiceLabel Cloud?

1. Easily design barcode labels in minutes

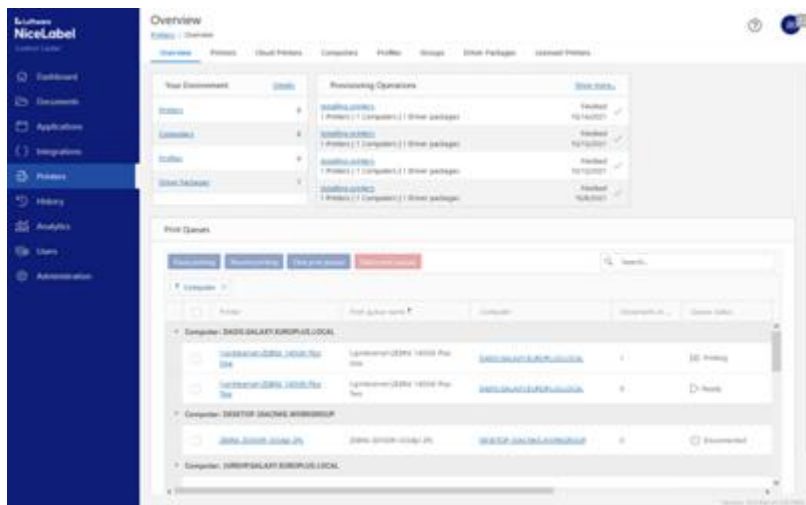

Software NiceLabel Cloud includes a built-in label designer that delivers a familiar Microsoft Word-like user experience. You can quickly design professional labels without IT help, no prior knowledge of barcoding or designer training necessary.

2. Centrally store your labels and access them from anywhere

Software NiceLabel Cloud contains a centralized storage system for all of your labels. Access the latest, up-to-date label templates anytime, anywhere, from a web browser.

3. Manage all your printers remotely via the web

The Control Center in Loftware NiceLabel Cloud saves you time and ensures your printers are ready to go. You can provision printers and update printer family drivers, manage printer settings for hundreds of printers and define role-based controls granting users access to their local printers.

4. Guarantee accuracy by integrating with your product data
